SITUATION FILLED WITH PERIL

Premier Lloyd George Pleads for Indulgence of Citizens of All Countries

WIPE OUT
JAP ARMY
IN SIBERIA

(By Associated Press.)
WASHINGTON, D. C., April 16.—It is learned authoritatively today that no American troops were in the vicinity when a Japanese unit in Siberia was wiped out recently by Russians. Reports that Americans joined to aid the Japanese had arisen. It was explained, because Major General Graves, acting in accordance with instructions, declined to join in an attack upon a force of Russians whom he had not recognized as Bolshevik or enemies. General Graves' position was made known when the Japanese commander applied for cooperation in the advance. The Japanese nevertheless, undertook the expedition alone.

NATIVE SON SOLONS
FINISH BUSINESS

(By Associated Press.)
SACRAMENTO, Cal., April 16.—The assembly completed consideration of all its own bills today after an all night session. The senate completed work on its own bills at 2 o'clock this morning. The legislative day has a week in which to complete its business. All assembly chamber exits were locked throughout the night and during the early morning hours some members of the assembly were caught dozing and were made the target of books and folded newspapers. At times the air was thick with flying missiles.

2100 MEN COME
BACK HOME TODAY

(By Associated Press.)
NEW YORK, April 16.—Twenty-one hundred officers and men of the 31st division, headed by Major General William Johnson, division commander, arrived from France today on the steamship Calamare. They are National army men from Washington, Oregon, California, Nevada, Utah, Idaho, Montana and Wyoming. The steamship Ohioan brought 1600 troops, a majority being members of the 40th division from California and Nevada.

OPERATOR ORDERS EQUIPMENT

The Operator Divide company has ordered an electric hoist and compressor and closed a contract with the power company for a \$5000 plant to be installed immediately.

GEORGE READING, a motor truck operator, was an arrival this morning from Hawthorne.

TODAY AND A YEAR AGO
Official readings of the thermometer by the United States observer at Tonopah.

	1919	1918
5 a. m.	45	30
9 a. m.	59	41
12 noon	63	47
Maximum April 16	62	50
Minimum April 16	38	28
Relative humidity at 2 p. m. today, 12 degrees.		

COME AND SEE IT

The Bonanza is now prepared to execute all kinds of promotion work in the shortest order. The new Model 14 Mergenthaler Linotype is installed and friends of the management are invited to drop in and see the wonderful machine which turns out four different styles of type faces without changing magazines. This Model 14 is the only linotype of the kind in Nevada and The Bonanza feels proud of the fact that the liberal patronage extended by the people of Tonopah warranted the management in placing in commission the latest and most costly machine of the kind in the state. This gives The Bonanza the advantage of two linotypes and insures prompt dispatch of all orders committed to this office.

MAY USE NAVY
TO STOP STRIKE

(By Associated Press.)
WASHINGTON, D. C., April 16.—The navy will be operated in and out of New York harbor if it requires the entire United States navy was stated officially today in connection with the plans of the harbor workers' strike tomorrow with the announced intention of tying up traffic.

ANARCHISTS LOOT
CITY OF MUNICH

(By Associated Press.)
LONDON, April 16.—Anarchists in Munich, Germany, today looted the city. They destroyed property and threatened banks. The dispatch says, "The first infantry regiment is said to have joined the Spartacists."

TAKEN TO THE COAST

Mrs. E. C. Simpson, wife of the manager of the MacNamara Mining company, who is suffering from pneumonia, was taken to San Francisco this morning. She was accompanied by Mr. Simpson, her mother, Mrs. Chris Malatesta and her two children. Mrs. Simpson never recovered her strength after the birth of her second baby. Miss Lytle, the trained nurse, was in charge of the patient.

OWNER OF BALAKLALA COPPER
BUYS WONDER GROUP OF CLAIMS

The abiding faith that New York capital has in the Divide properties is demonstrated by a sale that was consummated this morning by W. A. Kerr, of the famous house of that name on Broad street. The ground was taken over on recommendation of C. W. Geddes, former manager of the Goldfield Consolidated Mining company who is now associated with the purchaser in various other mining investments. Mr. Kerr arrived yesterday morning and before dark he had the sale all lined up and the final details all but completed. This morning the transaction was consummated and Mr. Kerr left for California. The ground comprises the Wonder group adjoining the Gold Reef on the south near the Gold Zone and represents 40 acres embraced in four claims and fractions which belonged to Bob Mayes. The deal was for cash and the stock of the operating company will be placed in New York where it has already been underwritten for more than the relatively small block of treasury that was allotted for immediate subscription.

DRYS LOSE BY
-SOLDIER VOTE

(By Associated Press.)
LONDON, April 16.—The vote of the New Zealand soldiers wiped out the majority for prohibition which was polled in that commonwealth April 11, according to a dispatch to the Central News from Christ Church.

PHONE OPERATORS
WANT RECOGNITION

(By Associated Press.)
LOUISVILLE, Ky., April 16.—Harry Henderson, business agent of the Telephone Operators' union, of Louisville today announced that a vote was being taken throughout the country by telephone employees to force the government to recognize the telephone employees union with a nationwide strike as an alternative.

MINER FROM THE HALIFAX
EXPIRES AT THE HOSPITAL

Steve Kovacevic, recently employed at the Halifax mine, died at the Mine Operators' hospital at 1 o'clock this morning from pneumonia after a week's illness. Deceased was a member of the Serbian Young Men's society under whose auspices the funeral will be conducted either Saturday or Sunday.

OWNER OF BALAKLALA COPPER
BUYS WONDER GROUP OF CLAIMS

The group is in a direct line with the Divide Extension, the Tonopah Divide, Gold Zone and Gold Reef and the shaft to be sunk by the company will complete a perfect alignment of shafts between the biggest properties of the district. Arrangements have been made for bringing in electric power from the main pole line which runs within a short distance of the site chosen for the shaft and the power company has promised to use its best efforts to furnish energy in record breaking time.

Mr. Kerr's weekly letters are regarded as the best and most illuminating literature issued from any New York house as he has a thorough knowledge of mining from practical experience. He holds control of the famous Balaklala Consolidated Copper company operating in Shasta county, Cal., with headquarters at Kennett. Mr. Kerr continued on to the Balaklala while Mr. Geddes went out also to procure hoist, compressor, cars, rails and other equipment which is ready waiting the order to ship.

POLICY IN
RUSSIA TO
BE KNOWN

(By Associated Press.)
PARIS, April 16.—It is understood that the policy concerning the manner of dealing with conditions in Russia has been formulated by the allied and associated governments. Announcement of this policy, it is believed, will be made before the day's close.

SAILOR LLOYD
WINS BATTLE

Tonopah fight fans were treated to a real battle in the roped arena last night at the Air dome, when Joe Welch, of New York, and Sailor Lloyd, of San Francisco, traveled the entire route of 20 rounds, resulting in the referee deciding Lloyd the winner.

Both men were physically perfect and throughout the long battle each tried repeatedly to land the telling blow that would proclaim him the winner. During the first part of the fray Welch was the aggressor and at one time had the sailor laid in distress. As the battle progressed Lloyd seemed to get the range of his opponent and several times heaved the anchor wallop that nearly put Welch away. Toward the end of the fight he kept referee White busy breaking the men who at every blow would go into a clinch. It being evident that the 20 round match was just a trifling stretch for the participants. At one period of the fight Lloyd in breaking tried a haymaker on his opponent that landed on the referee's cheek. After that White kept at a respectable distance and was cautious as to getting within striking distance only when absolutely necessary.

The contest was one of the best that has been pulled off in the Southern mines district for many years and the first to go 20 rounds since the new boxing law was enacted at the last legislature.

Great credit is due the Business Men's association in the able manner in which the battle was staged. H. R. Greer, who acted as announcer, stated that the winner of last night's battle would meet K. O. Krouvisky, the champion middleweight of the Pacific coast, at the Air dome, in Tonopah, next month. As Krouvisky has taken the measure of all the ding generals of his weight on the coast he should give Lloyd the battle of his life and the fans of this district will anxiously await the going that will send these men together.

Several admirers of the fighters came over from Manhattan and Goldfield. The house was packed, it being evident that the fighting game will come back stronger than ever under the law.

The preliminary between Kid Dougherty of Tonopah and Kid King, of Reno, was a tame affair, neither caring to mix matters. At the end of four rounds the referee decided the affair a draw.

Joe White of Tonopah was the third man in the ring who doctored Lloyd the master of Welch. His decision met with approval.

BEN RICHARDSON, foreman of the Cash Boy, is back at his post after a siege of sickness.

(By Associated Press.)
LONDON, April 16.—Replying in the house of commons to previous criticism of his activities at the peace conference in April, Premier Lloyd George said the situation is "still full of perils for all countries." He pleaded that "those who are trying to do their best should be let alone." "No conference in history," said the premier, "has been faced with problems of such variety, complexity and magnitude. The time spent by the peace conference in framing the league of nations plan, saved time instead of wasting it," George declared, as the league would provide means for adjustment of possible errors.

"It is not true that the United States and Europe have been at variance," the premier declared. He deprecated the attempts to sow dissension among delegates. In answer to a question from John G. Vlamis, labor leader, whether approaches for peace had come from the Russian government Lloyd George said "We had no approach of any sort or kind. None has been put before the conference."

Lloyd George said it is his earnest conviction that military intervention would be the greatest act of stupidity. The premier said reliable information showed the whole Bolshevik force apparently growing and Bolshevikism gradually was breaking down before the relentless force of economic facts. Questions cropped up at the peace conference which imperiled the peace of Europe but, the premier believed, the conference had surmounted these difficulties.

ARMY TANK FAILS
TO CLIMB PIKE'S

(By Associated Press.)
COLORADO SPRINGS, April 16.—An attempt to ascend Pike's Peak in a battle tank was abandoned today. Yesterday the tank broke down at an altitude of 11,200 feet. Owing to difficulties making repairs at that altitude a further attempt was abandoned.

JOS. M'EACHEN
QUITS U. S. JOB

Joe McEachen, United States marshal for the district of Nevada and one of the most prominent Democratic politicians in the state, filed his resignation Saturday and will return to his old work as a commercial traveler. He was one of the first buyers of inside ground in the Gold Mountain Divide district and feels that he needs more time to attend to his personal business.

Tom Pickett, brother of Sam Pickett, of Reno, has been recommended to succeed him and will probably be appointed within a short time.

McEachen's resignation as one of the most attractive federal positions in the state came as a surprise to his closest friends. He was appointed about a year ago, succeeding A. B. Gray.

Peace Delegate Lloyd George said they had never forgotten what France had gone through and they had not forgotten that she was entitled—not merely as security against a repetition of the German attack—but to feel a sense of security against it.

MAY TELL SMALL
NATIONS TERMS
OF SETTLEMENT

(By Associated Press.)
PARIS, April 16.—Delegates from the 18 states which declared war on Germany exclusive of the great powers were called to meet this afternoon at the French war office in representatives of the five powers. Matters for discussion include the question of calling in the German plenipotentiaries and making known the peace preliminaries to the 18 states.

SELLS BANK GROUP
TO RENO COMPANY

Charles E. Perry yesterday turned over the bank group of claims to J. E. Smith and C. N. Conn, of Reno, who are preparing to work the ground in the most approved form. They will bring in a complete new equipment without delay. This makes the second group transferred through the activity of Mr. Perry who is known as one of the largest owners of claims in the eastern end of the Tonopah district on which diamond drills were operated last year.

DEATH W. O. DAVIS
A POPULAR LEASER

William O. Davis, one of the oldest residents of Tonopah and one of the best known miners in the camp where he had been employed for 12 years on the Montana Tonopah mine, died this morning at 6:20 at his home at Cross and Ellis streets after a week's illness from pneumonia. Mr. Davis was leasing on the Montana up to the time he was taken sick. He was 33 years of age and leaves a wife and two children, all of whom are confined to the house by sickness. Deceased was a member of Tonopah lodge of Elks and the grief of the members is testified by the colors being displayed today at half staff.

Mr. Davis was one of the most enthusiastic boosters for the Divide district from the inception of work in that quarter when he bought 2000 shares of Tonopah Divide at 15 cents and told his friends that the stock some day would be worth \$10. His friends wish they had followed his advice. Mr. Davis never sold his stock, as he held a group of friends recently that with the showing of the mine the stock should be worth \$20 a share. The date for the funeral has not been fixed.

had not forgotten that she was entitled—not merely as security against a repetition of the German attack—but to feel a sense of security against it.

The conference has come to the unanimous conclusion that all questions before it, including the decision that to publish the peace terms before they are discussed with the enemy, would be a first class blunder. Premature publication he condemned, as it could only serve to encourage resistance of the enemy.

Lloyd George denied he was trying to escape declarations he made during the general election campaign. The declarations regarding making Germany pay he declared, had been considered in by all party leaders.

The premier said he was going back to Paris if the house wanted him to go. Whoever went, he declared, must have the full confidence of parliament to carry out his pledges to his power of conviction.

(By Associated Press.)
WASHINGTON, D. C., April 16.—A distinct improvement in the general peace conference situation was reported at the White House today from Paris. Reports indicated that "excellent progress is being made toward concluding negotiations."

WEST END WILL
WORK THE 76

As a result of the meeting of stockholders of the Tonopah "76" held in Reno yesterday the contract with the West End was ratified and the "76" will be operated by the West End company beginning immediately. The work will be done from the 800 foot level of the latter company. The contract includes a side line as well as a general working agreement and the new arrangements should be found to the profit of the "76" company, whose property has not been worked by company account since the death of Eugene Howell, five years ago.
